Elsewhere will be found a letter from Mr. H. D. Griffith, Division State Highway Engineer, addressed to County Clerk Huff, stating that the State Highway Department is about to settle the question of what route shall constitute the State Highway from Ironton to the south end of the county. Certainly everybody will be glad that this much mooted proposition is at last to be finally passed on. Everyone interested should read Mr. Griffith's letter and meet him and Mr. Malange, State Highway Superintendent, on their visit to Ironton next Friday.

After Saturday night there will be no more electric lights unless the differences between the light company and the milling company, who furnish the power, are adjusted. The light company wanted to pay less for the service, while the milling company contend that they are furnishing the power now as cheap as they possibly can and will not stand for a cut. We are told that the light plant here is being operated at a loss and the possibilities are that the company may rather give up the franchise than to go to an additional expense of building a power house, which would also take some time to do.—Bismarck Gazette.

Some of our good road advocates are advancing the idea of incorporating a special road district embracing considerable portion of Arcadia Township and a small part of Iron Township in the vicinity of Graniteville and Middlebrook. The idea is to build a road about two miles west from Ironton, south to where the roads fork below Arcadia, east to Roselle, north to Graniteville, thence to Middlebrook. The cost of building these roads is estimated will be in the neighborhood of \$50,000. It is proposed to issue bonds to that amount to secure the necessary funds. Steps leading to the incorporation of the district will probably be taken soon.

Mr. J. A. Reyburn, with the Internal Revenue Department, can be found at the County Superintendent's office in the courthouse, Ironton, during the present week by all persons desiring information as to federal taxes and penalty for failure to make proper returns to the authorities. Just at this time the government officials are looking up those people who failed to make income tax returns. Many people, who are not liable for tax, are under the law required to make a return, and failure to do so is penalized. If you have any doubt as to where you stand in this matter you had better see Mr. Reyburn while he is here, or if you want any other information in reference to federal taxes he will be glad to help you in any way he can.

The County Clerk informs us that the letter from the State Highway Board recently published in this paper to the effect that no appropriation had been made by the Legislature authorizing the use of the General State Road Fund on the roads of the State this year, apparently has created a wrong impression in the minds of some people, judging from the number of inquiries that have reached him on the subject. Mr. Huff asks us to state that this oversight of the Legislature does not affect any of the road moneys except a fund known as the General State Road Fund, derived from automobile licenses, etc., Iron County's share of which usually amounts to between six and seven hundred dollars each year. When available this money can only be used by an equal amount being appropri-

ated by the county or contributed by subscription.

BY FRED KILLALEE.

You may dream of lullaby far off joys,
By mountain side, by sea,
But the charms of Arcadia Valley
Are good enough for me.
Content am I in Goulding's park
Or Sylvan Lake so fair,
And by the rippling Shut-Inn streams,
Else eke the sweet des-valley.
Killalee lakes and other loving spots
There be
Where grateful souls may roam;
So sing who will of land or sea,
I will sing the joys of our valley
home.

Business is getting better in the way of lumber, ties and mining props, but the high cost of living is getting worse all the time. Lard is retailing here at 60 cents and bacon 35 to 55 cents. Unless something is done soon we will have another civil war. As for myself I am 75 years old, but will shoulder my gun to-morrow to stop the red speculators that are starving our laboring people.
